

### Test Question 1

Is there a case of pneumonia in this image? (required)

☒ Yes

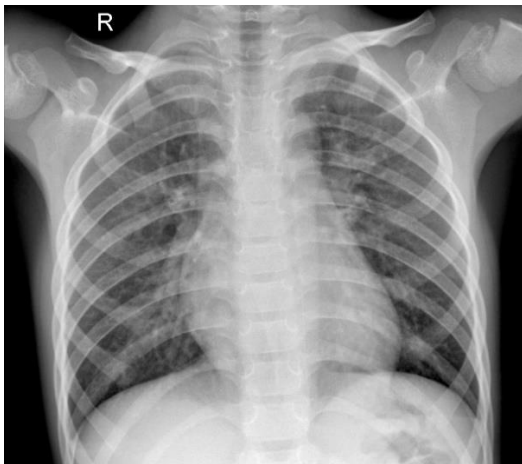

☐ No

☐ Unclear

**REASON** (Shown when contributor misses this question)

There is clear cloudiness over the ribs and lack of shadow on the diaphragm

### Test Question 2

Is there a case of pneumonia in this image? (required)

☐ Yes

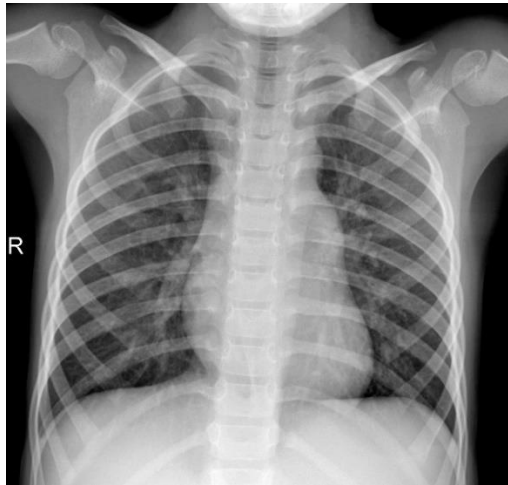

☒ No

☐ Unclear

**REASON** (Shown when contributor misses this question)

Can clearly see ribs and shadow of the diaphragm

### Test Question 3

Is there a case of pneumonia in this image? (required)

☐ Yes

☐ No

☒ Unclear

REASON (Shown when contributor misses this question)

There is actually not much cloudiness in the rib area, and there is a lack of shadow on the diaphragm. This is likely a case that needs to be reviewed further as there are some indications that it is and some it is not.
